

## ***Clean, quiet & surprisingly powerful.***

The EF2400iS combines convenience and power in one desirable package. A weight of 32 kg takes the strain out of transportation, while ultra-quiet operation levels (54-59 dBA)\* keep noise to a minimum.

However, the 2400iS counters its size with an output of 2.4 kVA. This gives you the power to drive a range of small to larger appliances - including the 13,500 BTU class air-conditioners that are used in many recreational vehicles.

And it has the capability for even more, thanks to its Twin Tech capacity. Hook up two EF2400iS generators for 3.8 kVA of maximum power. \*at 1/4 rated load from 7 meters.
